DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(a) as being anticipated by Natsume et al (2004/0100240).

Natsume et al discloses an integrated circuit power supply for providing a direct current (DC) source voltage, comprising: a source voltage supply unit (T1, T2) to supply said DC source voltage; a power supply control device (12) coupled to the source voltage supply unit; an output capacitor (C1) coupled to an output node of the integrated circuit power supply and a ground terminal; and an output voltage coil (L1) coupled to the power supply control device (12) and to the source voltage supply unit (T1, T2) at a first terminal and to the output capacitor (C1) and the integrated circuit power supply output node at a second terminal (see figure 5).

Allowable Subject Matter

3. Claims 3-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Allowable Subject Matter

4. Claims 10-20 are allowed.
5. The following is an examiner's statement of reasons for allowance:

Claim 10 recites, inter alia, and when an interrupt to the supply of the DC source voltage occurs, enabling a discharge path coupled to the output.

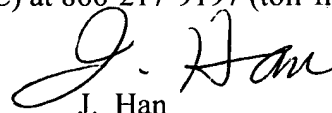

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include either of the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Y. J. Han whose telephone number is 571-272-2078. The examiner can normally be reached on Mon-Fri 6:30am-3:00pm.
